

LATE FOREIGN NEWS!

AMERICAN.

By the O. S. S. Alameda news dates have been received up to March 29th. A summary is given below.

WASHINGTON, March 21.—Dr. Z. T. Sowers, one of the most prominent physicians of Washington, in an interview with a reporter to-day declared there is danger that President Cleveland will not live through his term unless there is a change in his mode of living.

WASHINGTON, March 21.—The demoralization among army officers is on the increase. Lieutenant Shaw beats all previous records, it is averred, by duplicating his accounts nineteen times.

BUFFALO, March 21.—A special from Jamestown says: The fire at the Chautauque Assembly grounds destroyed eighty buildings, including several large boarding-houses, among them the Eckert and Parkhurst, and all in the houses. The total loss will probably exceed \$100,000.

WASHINGTON, March 22.—The President has appointed the following Interstate Commissioners: Thomas M. Cooley, of Michigan, for a term of six years; William R. Morrison, of Illinois, for a term of five years; Augustus Schoonmaker, of New York, for a term of four years; Aldaee F. Walker, of Vermont, for a term of three years; Walter L. Bragg, of Alabama, for a term of two years.

LOS ANGELES, March 22.—Eight cases of small-pox among Mexicans were discovered to-day. Six of these cases were in one family. All were taken to the pesthouse.

OTTAWA, Ont., March 23.—Van Horn, of the Canadian Pacific Railway, reports that trains are now running regularly between Calgary and the Pacific Coast. He says that the past winter has been exceptionally severe, snow slides sweeping before them trees of at least thirty years' growth. The snowdrifts stood the test well.

NEW YORK, March 23.—Beecher's books, engravings, etchings, paintings, rugs and bric-a-brac will be sold at auction next fall. The library contains about 10,000 volumes. While he bought many costly gems he gave away the most of them; those he left are worth probably not more than \$2,000. His farm, the Bosobel, at Peekskill, which is for sale, is valued at \$100,000.

NEW YORK, March 24.—The steamship Scotia, which left Marseilles on February 20th, from Naples and passed Gibraltar on the 27th from New York, is now about ten days overdue. At Naples she took on board passengers, eight hundred and thirty-four in number, off the steamship Burgundia, which collided with the ironclad Italia, and was beached to prevent her sinking, making her total number of passengers about one thousand. Apprehensions for her safety had been excited.

FIRE ISLAND, March 25.—The French steamer Scotia grounded on the outer bar early this morning, and for a time, owing to a heavy sea, was in great danger. She had on board some twelve hundred persons, mostly Italian immigrants. The Life-Saving Service crew got lines over the steamer shortly after daylight, but the surf was so heavy no one could be landed. About two hours after the wind moderated, the waves went down and lifeboats succeeded in reaching the stranded vessel. Though much alarmed, the passengers were found all safe. The steamer rested easy after the wind went down, and nearly all the passengers remained on board. Tugs and steamers were sent to aid the Scotia, and to-morrow morning the passengers will be taken to New York.

NEW YORK, March 26.—When at the sale of A. T. Stewart's collection of paintings last night, Rosa Bonheur's famous work, "The Horse Fair," was bought in the name of S. P. Avery, a dealer, for \$53,000, much speculation was indulged in as to who was the real purchaser back of him. The actual purchaser was Cornelius Vanderbilt, who presents it, with his compliments to the Metropolitan Museum of Art, where it will always be accessible to the public.

CITY OF MEXICO, via Galveston, March 25.—A section of the press of the press of this country is attacking the Administration on the ground that it favors too strongly American interests, giving special encouragement to the construction of railway lines from the United States and not doing enough in the direction of building interstate lines.

PANAMA, via Galveston, March 28.—A riot occurred last night owing to a military officer's resisting arrest. Three men were killed and several wounded.

SACRAMENTO, March 28.—The series of temperance meetings under the leadership of R. T. Booth, held in the Metropolitan Theater, closed this evening. The meetings have been a success, the theater being crowded nightly and hundreds were turned away. Twenty three hundred have put on the total abstinence badge of the blue ribbon, and eighteen hundred many of whom were drunkards, signed the pledge and wear the ribbon boldly and proudly.

LONDON, March 28.—Sir James Ferguson, Under Secretary, said he hoped to lay before the House before the Easter recess a dispatch from the United States Government relating to the fisheries dispute. Mr. Smith's motion for urgency of the Coercion bill will be opposed to the uttermost by the combined strength of the Gladstonians and Parnellites. Smith promises an early statement of his land proposition, but the opposition are determined not to permit the

introduction of a Coercion bill until the land question has been dealt with.

Reports state that Lady Wilde, the mother of Oscar Wilde, who is known throughout Ireland as "The Ranger," over which name she wrote revolutionary poems during the Young Ireland Rebellion in 1848, is in absolute want. For over six years she has not received a penny of rent, owing to the land war, yet she will not consent to a single eviction on her estate.

LONDON, March 23d.—After an all-night session the House of Commons passed the Civil Service bill, and adjourned at 1:20 p. m. to-day. William Henry Smith, Government leader in the House of Commons this evening and moved that the bill for the amendment of the Criminal law in Ireland have precedence over all orders of the day. He said the Government were bound to act under a sense of public duty, particularly when they found juries in Ireland intimidated and notorious criminals getting off scot free.

LONDON, March 23d.—An explosion by which twenty miners were killed occurred to-day in the Bulli Colliery, near Sydney, New South Wales, Australia.

LONDON, March 23d.—Advices from Suakin state that the British war ship Albacore captured two slavers with a cargo of sixty slaves each, going to Keddah.

DUBLIN, March 23d.—A number of tenants on Shirley's estate, at Carrickmacross were evicted to-day. The evictions were attended with some stirring scenes. The police, one hundred and fifty in number, were met by a crowd of peasants with bands of music and headed by priests. Little opposition was met with until the police arrived at the cottages.

LONDON, March 24th.—Cambridge won the University boat race. Just before the race betting was 15 to 8 in favor of the Cambridge crew. The race was over the usual course of the Thames, from Putney to Mortlake. The wind was fresh and the water lumpy when the crews launched their boats just prior to the start, and the weather threatened rain. Cambridge at once took the lead, rowing with a slightly more rapid stroke than Oxford. At Barnes Bridge, three miles and five furlongs from the start, Cambridge led by one length and a half. After passing the bridge the Oxford crew broke an oar, and that, of course, secured the race for the Cambridge men, and they won easily by three lengths. The race was a fine contest as far as Barnes Bridge, being strongly contested every inch up to that point. The Oxford crew pulled better together than their opponents did, and it is agreed on all sides the distance they lost was by bad steering entirely. The length of the course is four miles and two furlongs. The time of the Cambridge crew was 20:52.

LONDON, March 25.—Arthur Farre M. D., F. R. S., the celebrated surgeon and writer, Physician Extraordinary to the Queen, Physician to the Princess of Wales and her sisters, is dead. He had just reached his seventy-fifth year.

LONDON, March 26th.—Unofficial advices received at the India Office state that the Government have undoubted evidence from the native chiefs that the Russian Governor of Turkistan is buying up the head men of the tribes throughout the north of Afghanistan. The work is done through native officers of Turkistan who have entered the Russian service. The chiefs report that the Governor has secured a number of notables and that these are organizing an extensive plot for a simultaneous rising in Afghanistan and Panjab. Burmah loyalists have collected a large force in the upper country and resumed the aggressive against the British. Recent reports stated that resistance had been crushed in Upper Birmah, but they prove to have been premature. Official advices received to-day state that fighting has been renewed at several points in districts believed to have been pacified by late defeats inflicted on the native forces.

BOMBAY, March 26th.—The consequence of the news from the Governor of Herat, that the Governor of Turkistan has ordered Iskander Kahn, with 12,000 men to surprise Herat, the Amir of Afghanistan has ordered 10,000 men to be in readiness to reinforce the troops at Herat.

LONDON, March 27th.—A convention has been signed between the Portuguese and Chinese Governments in which China recognizes the Portuguese right to the possession of Macao.

The Prince of Wales has been feted in Belgium, and has returned to London.

A Safeguard.

The fatal rapidity with which slight Colds and Coughs frequently develop into the gravest maladies of the throat and lungs, is a consideration which should impel every prudent person to keep at hand, as a household remedy, a bottle of AYER'S CHERRY PECTORAL.

Nothing else gives such immediate relief and works so sure a cure in all affections of this class. That eminent physician, Prof. F. Sweetzer, of the Maine Medical School, Brunswick, Me., says:—

"Medical science has produced no other antidote so potent as AYER'S CHERRY PECTORAL. It is invaluable for diseases of the throat and lungs."

The same opinion is expressed by the well-known Dr. L. J. Addison, of Chicago, Ill., who says:—

"I have never found, in thirty-five years of continuous study and practice of medicine, any preparation so good as AYER'S CHERRY PECTORAL, for treatment of diseases of the throat and lungs. It not only breaks up colds and cures severe coughs, but is more effective than anything else in relieving even the most serious bronchial and pulmonary affections."

AYER'S CHERRY PECTORAL has, in numerous instances, cured obstinate cases of chronic Bronchitis, Laryngitis, and even acute Pneumonia, and has saved many patients in the earlier stages of Pulmonary Consumption. It is a medicine that only requires to be taken in small doses, is pleasant to the taste, and is needed in every house where there are children, as there is nothing so good as AYER'S CHERRY PECTORAL for treatment of Croup and Whooping Cough.

These are all plain facts, which can be verified by anybody, and should be remembered by everybody.
